2.SELECT GAME

When the unit is turned on the game will ask you to choose the type of game you want to play, ***“Name That Tune”*** or ***“Melody Countdown”***. ***“Name That Tune”*** includes three exciting games ***“Melody Roulette”***, ***“Guess a Tune”***, and ***“Melody Countdown”***. If you choose ***“Melody Countdown”*** you will only play this game. Please read the following brief descriptions of the games to decide which game to choose.

GAME PLAY OVERVIEW

ROUND 1: **MELODY ROULETTE**

OBJECT: Players compete to name the tune the quickest. The dollar amounts to win are randomized.

GAME PLAY: The game will begin to play 15 notes from a song. As soon as a player recognizes the song he presses either the **PLAYER 1** or **PLAYER 2** buttons to **“buzz in”**. He then has to type the name of the song onto the screen. If the name is correct, then the player wins the dollar amount shown on the screen, if not the amount is deducted from his score.

ROUND 2: **GUESS A TUNE**

OBJECT: Be the first player to **Name That Tune** in the fewest notes.

GAME PLAY: The game starts out by playing three notes of a song. The unit will wait five (5) seconds and if neither player can guess the song then the unit will play the song again, but will add three (3) additional notes. The unit will continue to add three notes to the tune until someone guesses it correctly. The first player to “buzz in” and guess the song correctly will win the **\$\$\$**. The dollar amount depends on how many notes it takes to guess the song. (The fewer the notes, the higher the winnings.)

ROUND 3: **MELODY COUNTDOWN**

OBJECT: Out wager your opponent and **Name That Tune** in the fewest notes.

GAME PLAY: Players are given a clue to the name of the song and then compete against each other and wager who can name the tune in the fewest notes. Each player has two chances to bid, then the unit will play the song so the player with the lowest wager will have to guess. A player can stop the negotiation by hitting “**ENTER**” after the number has been agreed to.

In “**NAME THAT TUNE**” players play all 3 rounds. In “**MELODY COUNTDOWN**” players only play “**Melody Countdown**” In both cases a game consists of 10 songs.

TO CHOOSE A GAME

To choose either *“Name That Tune”* or *“Melody Countdown”* press the **SELECT** button until the desired game is flashing and then press **ENTER**.

- **SELECT NUMBER OF PLAYERS**

Once the game is selected, the unit will ask for number of players. Press either **PLAYER 1** (to play against the computer) or **PLAYER 2** (to play against an opponent).

OBJECT: Players compete to name the tune the quickest. The dollar amounts to win are randomized.

GAME PLAY:

- Players are prompted to “**HIT SONG BUTTON**”

As soon as a player recognizes the song or within 15 seconds of the playing of the last note, the player must press either the **PLAYER 1** or **PLAYER 2** buttons to “buzz in”. The player then has to 40 seconds to type the name of the song onto the screen. Once the name is typed in, the player presses **ENTER**.
- If the name is correct, then the player wins the dollar amount shown on the screen. The game will then display the name of the song and play all 15 notes.
- If the name is not correct OR the player does not type the name in within the 40 seconds, the amount is deducted from the player's score.
- If the first player to buzz in does not correctly name the song then the song is repeated and the second player has 5 seconds to buzz in to name the song.
- If neither player correctly names the song then the unit will display the name of the song and play it.
- After the song is identified, the game will display the current score for both players.
- To move to the next song press the **SONG** button
- There are 3 songs in this round. After the third song is played, the game will show **ROUND COMPLETED** and the current score.

GAME TIPS:

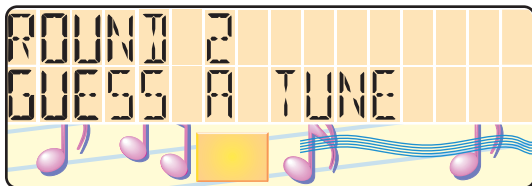

- The name of the song **MUST** be typed correctly. Therefore refer to Appendix 1 which lists the complete titles and correct spellings for all songs.

Note: No punctuation marks are needed when typing in correct song title.

- At any time during the initial playing of the song and up to 15 seconds after the last note is played, players may press **REPEAT** to re-play the song. Note that the timer **DOES NOT STOP** during **REPEAT**. Players may press **REPEAT** after any number of notes are played.

- The first player to “**buzz in**” and guess the song correctly will win the **\$\$\$**. The dollar amount depends on how many notes it takes to guess the song. (The fewer notes, the higher the winnings.)

- The scoring is based on the following table:

3 notes: \$1300

6 notes: \$1000

9 notes: \$700

12 notes: \$400

15 notes: \$100

GAME TIPS:

- The name of the song **MUST** be typed correctly. Therefore refer to Appendix 1 which lists the complete titles and correct spellings for all songs.

Note: No punctuation marks are needed when typing in correct song title.

- At any time during the initial playing of the song and up to 15 seconds after the last note is played, players may press **REPEAT** to re-play the song. Note that the timer **DOES NOT STOP** during **REPEAT**. Players may press **REPEAT** after any number of notes are played.
- After the song answer is shown, players may also press **REPEAT** to hear the song played again.
- If neither player knows the song, they may press the **ENTER** button to “**skip**” that song. The game will then display the name of the song and play it through. Players may only skip a song while it is playing. Once it is finished playing players will have to wait 15 second for the answer. Players may only skip one song in the round.

ROUND 3: MELODY COUNTDOWN

OBJECT: Out wage your opponent and Name That Tune in the fewest notes.

GAME PLAY:

- Press the SONG button.
- A clue for the song will appear on the screen. Players use this clue to help determine how many notes they will need to name the song.

- On the LCD screen, the number 15 will appear and this is how many notes the player will have in which to name the song. The player will use the arrow buttons to increase or decrease the number of notes. The negotiating will start at 15 and the player uses the arrow button to determine how many notes the player wants to wager. Once the players decide, a player hits "ENTER" to confirm the choice.

- Now the other player or computer has a chance to negotiate using the same procedure just described. The negotiation will only happen twice between the players.
- If one player wants to concede, then he should press **ENTER** without lowering the bid further and that will pass the bid to the other player. The game will then “announce” “Player (1 or 2) Name That Tune. The Player with the lowest bid then has 40 seconds to type in the name of the song and press **ENTER**. If the name is not correct or the 40 seconds expire, then the game will deduct the score from the player's total.
- If one player enters the wrong name of the song, the song will be repeated and the other player has an opportunity to name the song.

There are a total of 4 songs in this round.

Scoring: In this game, the player gets dollar amounts based on how many notes are used. The fewer notes, the higher the dollar amounts. The following table indicates the score for each number of notes:
